Our collections go from north to south. Our design philosophy is not guided by stringent rules, strict color pallets and a fixed set of geometric shapes. Our products are based on what we like, our travels, interactions and moods. Our favorite designs tend to be created by nice people and we believe that the most talented can adapt while still maintaining their artistic touch. They can see the beauty in all things. We work with all materials, nationalities, trends, and time periods. We take a novel approach to interior design. We are anything but grey walls and minimalists.

We are Lucie Kaas.
